## **DETAILED ACTION**

### ***Election/Restrictions***

1. Based on applicant's election and arguments, it is noted that the single species election requirement of the prior office action (section 9) needs to be elected. The single species (section 9) of the prior office action has been set forth below.

Claims 1-26 and 56-62 are elected.

Upon election of invention I or III above, the applicant is further required to elect a single species of the following under 35 U.S.C. 121 for the purpose of examination. This additional requirement is to facilitate examination due to the broad range of Railroad infrastructures that can be included in the multilevel system.

Elect for each of the processors or levels the received or included data e.g:

- F 1<sup>st</sup> processor/level receives or includes Train data only;
- G 2<sup>nd</sup> processor/level receives or includes Railway infrastructure only;
- H 3<sup>rd</sup> processor/level receives or includes Railway track network only;
- I 4<sup>th</sup> processor/level receives or includes consist data only; and
- J 5<sup>th</sup> processor/level receives or includes optimization instructions only.

Note: In regard to the single species election of species the election should not be open-ended (i.e. comprising). An open ended election will be considered non-responsive.
